

HTML Assignment: Personal Portfolio Website

Project Name: Portfolio

Deadline: September 7, before 9:00 AM

Objective

Create a **2-page Personal Portfolio Website using only HTML**.

The purpose of this assignment is to practice the HTML topics covered in class, including basic structure, text elements, links, images, lists, semantic HTML, forms, attributes, and tables.

Important Rule: Original Work Only

Your assignment must be your **own work**.

Do not copy code, content, portfolio sections, or complete solutions from:

- AI tools such as ChatGPT, Gemini, Claude, Copilot, etc.
- Other websites
- GitHub repositories

You may use class notes and documentation only to understand HTML syntax.

Copied or AI-generated submissions may not be accepted.

Website Pages

Your website must contain exactly **2 pages**.

Page 1: Home

Suggested file:

`index.html`

Include:

- Header
- Navigation
- Introduction / Hero section
- About Me
- Skills
- Projects
- Education or Experience table
- Footer

Page 2: Contact / More About Me

Suggested file:

contact.html

Include:

- Header
- Navigation
- Contact information
- Contact form
- Hobbies / Interests / Learning goals
- Social links
- Footer

Both pages must be connected using navigation links.

Example:

```
<a href="index.html">Home</a>  
<a href="contact.html">Contact</a>
```

Required HTML Topics

Your project must demonstrate:

- `<html>`, `<head>`, `<body>`
- HTML comments
- Parent and child elements
- `<h1>` to `<h6>` where appropriate
- `<p>`
- `<span>`
- `<strong>`
- `<br>`
- `<a>`
- Internal links
- External links
- `target`
- `<img>`
- Relative and/or absolute image path
- `<ul>`
- `<ol>`
- `<li>`
- `<div>`
- Block and inline elements
- `<header>`
- `<nav>`
- `<main>`

- `<section>`
- `<article>`
- `<aside>`
- `<footer>`
- `<form>`
- `<label>`
- `<input>`
- `<textarea>`
- `<select>`
- `<option>`
- `<table>`
- `<tr>`
- `<th>`
- `<td>`

HTML Attributes

Use different HTML attributes, including:

- `id`
- `class`
- `style`
- `title`
- `href`
- `target`
- `src`
- `alt`
- `width`
- `height`

Project Requirements

1. Website must contain **2 HTML pages**.
2. Both pages must be connected through navigation.
3. Use proper semantic HTML structure.
4. Use at least one HTML comment.
5. Use proper indentation.
6. Use your own content and information.
7. Add at least one image.
8. Add at least one unordered list and one ordered list.
9. Add at least one table.
10. Add a contact form.
11. Add at least one internal link.
12. Add at least one external link that opens in a new tab.
13. Do not use React, Bootstrap, Tailwind, or JavaScript frameworks.
14. Do not submit copied or AI-generated code/content.

Suggested Project Structure

```
portfolio/  
├──  
├── index.html  
├── contact.html  
├──  
└── images/  
    ├── profile.jpg  
    ├── project-1.jpg  
    ├── project-2.jpg  
    └── project-3.jpg
```

Submission Requirements

You must submit both:

1. Public GitHub Repository

Upload the complete project to a **public GitHub repository**.

Example:

```
https://github.com/username/portfolio
```

The repository must contain your complete project files.

2. Live Website Link

Deploy your website online and submit the **live URL**.

You may use:

- GitHub Pages
- Netlify
- Vercel
- Any other free static hosting platform

Example:

```
https://username.github.io/portfolio/
```

Final Submission

Submit:

Student Name:

GitHub Repository:

Live Website:

Both the **GitHub repository and live link are required** for the assignment to be considered complete.
